Instruction Manual

use. This device is not suitable for commercial or medical use, but is only intended for private domestic use.

TECHNICAL INFORMATION

Power: 220 – 240V ~ 50-60 Hz 130W

CARE AND CLEANING

After each use, clean the unit. Start by unplugging the mains plug. Allow the appliance to cool for 10 to 15 minutes before removing the piece you have used. If there is still water in the tank, empty it by pouring it down a sink. Then clean the fog emitting plate and remove grease and lime deposits using a commercially available descaler suitable for aluminium.

Do not immerse the appliance in water or other liquids. If liquids get into the unit, disconnect the mains plug immediately. In the event of a fault, do not repair the device yourself, as this will invalidate all warranty claims. Contact your shop's customer service department.

DESCRIPTION

Instruction Manual
